Roadmap for Android Development

➢ Learn JAVA or Kotlin.
➢ Cover JAVA upto Object Oriented Programming, then start the android course.

Helpful Resources

▪ YouTube (Link, Link, etc.)
▪ Paid Courses (Recommended) If possible try one of these course. Trust me it is highly recommended by most of the developers.

<div align="center">Course-1 OR Course-2</div>

▪ Free Theory Recourses
  • Android Fundamentals Link
  • Android Advanced Link
  • Udacity Firebase (**Backend**) Link (Theory) Link (Video)
  • Data Storage Link
  • XML article Link

Projects

Start with basic projects. I am mentioning below some of the projects-
1. Calculator
2. Notes app
3. Music app
4. To do list
5. Stopwatch
6. Quiz app
7. Scanner app
8. Alarm, etc.

Internship tips

How to get an internship through LinkedIn
